

MINOR ADJUSTMENTS TRANSITIONAL HOUSE

“NOT THE ACTUAL HOUSE”

The primary purpose of Minor Adjustments Transitional House is to help individuals coming from incarceration or rehabilitation facilities to make a smooth transition back into their communities.

To those of you considering the Minor Adjustments Transitional House

We are a Self-run, Self-Supported, Drug and Alcohol-free house in which residents govern themselves. For some individuals, returning home to their old environments where they used drugs and committed crimes will be stressful and triggering, so the Minor Adjustments Transitional House serves as a way to help those individuals to maintain their recovery. We rely on using a family-like atmosphere to educate the residents on gaining Life Skills, Motivation, Productive Living, Spirituality, Success, and Coping Skills in a safe environment.

While the house and its residents do not provide any treatment, recovery, or detoxification services, members of the house can and do provide support for one another through daily conversations and house-organized meetings, and mandatory morning devotionals that promote sobriety and recovery.

About the Founders

Lernell Williams has been a Licensed Nurse for 10 years. She has a love for helping people. Prior to becoming a nurse, she chose employment consistent in caring for others. She has experience with Pediatrics, Gerontology, Infectious Disease, and Addiction.

August 2009 is when Michael L. Williams became sober. Since then, he became a 10-time Published Author, assisted five other people in publishing their books, and helped three other people with starting their own businesses. He co-founded the Minor Adjustments Program with his wife and is currently a Substance Abuse Counselor and Recovery Coach. We hope that you will choose the Minor Adjustments Transitional House, and get to experience a sense of family. This is because we believe that the family is the vision and the vision is the family!
